

Wonder:Kit

Inventor

Discover the maker within you!

"A useless invention is just as good as a useful one"

Name of invention:

Name of the group and members:

Which problem does the invention solve:

Explain the problem that you are solving

Design and sketches:

How does it look?

Solution and plan:

Technical drawing and solution

Parts needed (BOM):

| | |
|---|----|
| 1 | 2 |
| 3 | 4 |
| 5 | 6 |
| 7 | 8 |
| 9 | 10 |

Code:

How does the code look and which blocks do you need to use?

Testing:

Explain what you discover during testing, both things that work and things that don't.

Presentation and evaluation:

Did the invention solve the problem

Which challenges did you face?
